

# 2020 FALL MARKET OUTLOOK REPORT

- **56%** of Canadians who are feeling confident in Canada's real estate market are likely to buy or sell even in the event of a second wave.
- Canadians are equally divided on their confidence levels in Canada's real estate market, **with 39% of Canadians as confident as they were before the pandemic and 37% less confident as they were before the pandemic.**

RE/MAX brokers were asked to provide local board data and additional insights on their region's market activity. The national average price prediction is based on a forecast from RE/MAX brokers and number of transactions between Q1 and Q3 per region. For more information about the report, visit [www.remax.ca](http://www.remax.ca). The outlook for remainder of 2020 was provided by RE/MAX Canada Brokers and Agents
